

Lloydminster Comprehensive High School

Advanced Placement Mathematics Application Form

What Is PRE-AP?

At Lloydminster Comprehensive High School students may take Pre-Advanced Placement (AP) courses. An Advanced Placement course is equivalent to a first-year university course, and successful students receive academic credit or advanced standing at participating universities in Canada, the United States and overseas. At LCHS, students in Grades 10 and 11 may take a more rigorous program that helps prepare them for entering the AP Calculus in Grade 12.

Program Applied For: Advanced Placement Grade 10 Math

Name: _____

Middle School: _____

Part 1: Qualifications

- a) Past history: What marks did you have in math in grades 7 & 8?

Grade 7: _____ Grade 8: _____

- b) What mark do you have in grade nine Math at this time?

- c) Teacher Section:

I agree that this student has the ability and the good work habits to succeed in an accelerated program.

Comments:

Teacher's Signature: _____

d) Parents Section:

I agree that this is the best program for my
son/daughter to be in.

Comments:

Parent's Signature: _____

**Part 2: Please consider and check off the
following points:**

- ☐ I have good work habits and I am prepared to do the homework involved in taking rigorous Math courses.
- ☐ I have the time to concentrate on this demanding course. (Some students have a lot of their time already committed to extra-curricular activities and find that they do not have the time to spend on this challenging program.)
- ☐ I like doing Math and find that the ideas in Math and Problem Solving come very easily to me.

**Part 3: Please write a short paragraph on why
you would like to enter the Pre-AP Math**
