TI Nspire CX II CAS Calculator Offer for LCHS Students

In order to foster 21st century teaching and learning at Lloydminster Comprehensive High School, the Mathematics department is recommending the **TI- Nspire CX II CAS handheld calculator**. The TI-Nspire CX II CAS handheld's innovative capabilities support teaching strategies that research has found accelerate the understanding of complex mathematics concepts.

This new technology has distinct advantages over the older generation TI-83 Plus or TI-84 Plus calculators and is the highest level of technology **permitted on Saskatchewan Departmental Exams and AP Standardized Tests**.

We are expecting students in the Advanced Placement and Pre-Calculus pathway to have a graphing calculator. We are strongly recommending that students in need of a graphing calculator, purchase the TI-Nspire CX II CAS. Through a special offer, Lloydminster Comprehensive High School is making these calculators directly available to students for **\$165**. Math teachers will communicate to students when calculators are available for purchase (mid-September). If paying by cheque, please make cheques payable to LPSD. Payment can also be made by cash, debit or credit at the school office. Should you have any questions about the calculator, please do not hesitate to contact Melissa Pedersen at melissa.pedersen@lpsd.ca.

If students do not wish to purchase a graphing calculator they are available to rent for \$30/semester on a first come, first served basis.

In the unlikely event of warranty issues, you will need to contact Texas Instruments directly at 1-800-TI-CARES.

More information on the TI –Nspire CX II CAS handheld is available at
